Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 264 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 264 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

Detailed Action

This supplemental office action is a response to applicant's information disclosure statement submitted February 17, 2011. This application is a national stage application of PCT/GB04/03932, filed September 15, 2004, which claims priority to foreign applications GB0321611.6, filed June 15, 2003, and GB0327723.3, filed November 28, 2003.

Claims 1-3, 6-8, 10, 11, 13-25, and 30-50 are pending in this application.

Claims 1-3, 6-8, 10, 11, 13-25, and 30-50 as amended are examined on the merits herein.

Reasons for Allowance

Applicant's information disclosure statement, submitted February 17, 2011, and the enclosed references, have been fully considered and not found to be the basis for any new grounds of rejection against the claims as previously allowed in the notice of allowance submitted January 4, 2011.

The information disclosure statement contains two correspondences from foreign patent offices. Both documents present grounds of rejection against claims in related applications filed by the Applicant. However, neither document addresses the limitation in the previously allowed claims requiring that the composition used in the claimed method contain 2% w/w or more of leucine. As discussed in the notice of allowance submitted January 4, 2011, Applicant has disclosed that the combination of heparin and 2% or more of leucine, as required by the present claims, produces an unexpected

improvement in the fine particle fraction of the composition, thereby overcoming any *prima facie* case of obviousness for adding 2% or more of leucine to such a composition. As discussed previously, because this effect is specific to the combination of heparin and leucine, references such as WO01/32144, which are generic to a large number of active agents, with no specific teaching of combining heparin and leucine, do not render the claims obvious.

Accordingly, the information disclosure statement submitted February 17, 2011, is not seen to be the basis for any new grounds of rejection, and the claims remain allowable for the reasons previously of record.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled, "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric S. Olson whose telephone number is 571-272-9051. The examiner can normally be reached on Monday-Friday, 8:30-5:00.
